

BHARAT FORGE

Product Performance Certificate

This is to certify that we are using 'Eetamax' brand 200 W, 240 W COB LED Highbay, fittings in place of our existing 400 W Conventional fittings, since last 4 years.

After the detailed survey, Eetamax has suggested us their 200 W & 240 W COB LED Highbay fittings from the point of view of improving light quality & energy efficiency. They have proved all their claims practically.

We have compared the performance of 'Eetamax' COB LED Highbay with other make multi (SMD) LED Highbay & Induction lamps. The results of Eetamax COB Highbay are much better in terms of lux level, glare & total efficiency.

The products are working satisfactorily in conductive dust, Heat & vibrating working environment at the mounting height of @ 18 – 20 mtrs.

We are enjoying benefits of @ 50 % direct energy saving along with improved light quality (Lux level has improved 3 times than the previous lux level) & drastically reduced maintenance.

We appreciate the light quality & performance of Eetamax products.
