

Appreciation Certificate

We are pleased to certify that we are using more than 400 nos. of Eetamax brand industrial lights for applications like High Bays, Street Lights, Flood Lights, and Office Lights.

After the detail study and survey, Eetamax suggested us their suitable lights for each area wise application. We compared Eetamax against other renowned brand and found that Eetamax lights delivered 20-30% higher lux level in the same wattage from the same installation height. The quality and feel of the lights, as well as the spreading and area coverage was also excellent.

Most of the lights in the shop floor are working for 16 hours per day and the lights are still working comfortably after 2-3 years of operation.

The technical support from Eetamax team & the product performance of Eetamax Energy Efficient Lighting systems is as per our fullest satisfaction till date.

We wish all the best to Eetamax team.
